- **Backend & Database:** Node.js, Express.js, MongoDB, NestJS
- **Tools & Technologies:** GitHub, GitHub Actions, Docker ,WebRTC, MicroFrontend , API Integration , Web scraping.
- **Cloud:** AWS (Certified Developer – Associate),

Professional Experience

Frontend Developer | May 2022 - present

Consultancy Outfit, Lahore, Pakistan

- Develop scalable and performant web applications using React.js, Next.js, TypeScript, Redux, and RTK Query, enhancing user engagement and platform responsiveness.
- Collaborate with cross-functional teams to deliver high-quality projects on time, adhering to best practices for responsive design and accessibility.
- Implement performance optimizations, including code-splitting, lazy loading, and Redux/RTK Query for state management, improving application speed and user experience.
- Integrate APIs with Material UI, Ant Design, and ApexCharts to create dynamic, data-driven dashboards for platforms like Air Applecart and IdentityGram.
- Resolve complex bugs efficiently, leveraging strong problem-solving skills and attention to detail.
- Communicate technical concepts and project progress effectively to both technical and non-technical stakeholders, ensuring alignment on project goals.
- Stay updated with emerging technologies and trends to enhance project functionality and quality.

Frontend Web Developer | Jan 2021 - Apr 2022

Nextlogixs, Lahore, Pakistan

- Designed and developed user-friendly websites, newsletters, and web portals using HTML, CSS, JavaScript, AngularJS, and Bootstrap.
- Managed front-end development for client sites, implementing responsive, mobile-first designs.
- Created an e-commerce web app for selling wooden carvings using HTML, CSS, and JavaScript, streamlining user interactions.
- Redesigned customer-facing websites and internal tools, improving usability and engagement.

Software Engineer Intern | Jul 2020 - Dec 2020

iTech Solutions, Lahore, Pakistan

- Collaborated on JavaScript, PHP, and React-based web and software development projects.
- Contributed to building responsive web applications, adhering to development best practices.

Key Projects

Agentic Creed

Developed a next-generation CRM platform with advanced analytics, automation, and seamless integrations for sales, marketing, and customer support using Next.js, TypeScript, React.js, and Material UI. Implemented features like real-time analytics, meeting schedulers, and loyalty programs, enhancing customer engagement and operational efficiency for over 50,000 active users.

Academic History

University of the Punjab | Sep 2021 - Aug 2023
Master in Computer Science

Acquired advanced knowledge in core Computer Science, Mathematics, and solidifying expertise in programming and IT fundamentals

UCP, Lahore, Pakistan | Apr 2016 - Feb 2020
Bachelor of Science in Software Engineering

- Lead FYP Project
- Dean's List for multiple semesters
- President, Tycoon Society UCP

Professional Recommendations and Reviews

Muhammad Azam Altaf, Sr. Project Manager – LinkedIn Services Review

Praised Kashif's coding skills and attention to detail in web development, noting significant improvements in project quality and his collaborative spirit that fosters a positive team environmen

Muhammad Muneeb Afzal, Project Manager – LinkedIn Services Review

Highlighted Kashif's professionalism, timely delivery, and valuable insights in web development, recommending him for exceptional service and dedication.

Awais Ali, Snr Program Manager – LinkedIn Services Review

Noted Kashif's technical proficiency in modern front-end technologies, responsive design, and user experience as a Mid-Level Front-End Developer, emphasizing his effective collaboration with cross-functional teams.

Muhammad Adil Shahid, Project Manager – LinkedIn Recommendation

Recognized Kashif's expertise in React, TypeScript, Redux, and Next.js, commending his clean, scalable code and seamless API integrations for user-friendly interfaces.

Usman Ramzan, Software Engineer – LinkedIn Recommendation

Acknowledged Kashif's strong skills in React, Vue, and JavaScript, delivering high-quality, maintainable code with a focus on user experience.

Umer Shahid, Technical Team Lead – LinkedIn Recommendation

Commended Kashif's work on Air Applecart, highlighting his ability to implement performance optimizations and create responsive dashboards using React.js and TypeScript.
